Summary

Product-minded full-stack developer focused on TypeScript/Next.js applications, secure auth/session workflows, and relational data design. Experience across live company platforms and large-scale academic product builds.

Technical Skills

Languages: TypeScript, JavaScript, SQL, C#, HTML, CSS/Sass, PHP

Frameworks/Libraries: React, Next.js, Node.js, Express, Socket.IO, Drizzle ORM, Prisma, Clerk, Tailwind CSS

Data/Infra: PostgreSQL, MySQL, MongoDB, REST APIs, CI/CD, multi-tenant SaaS, object storage (S3-style)

Engineering: Auth/session security, i18n localization, SEO strategy, Lighthouse optimization, AI API integration

Tools: Git, GitHub, GitLab, GitHub Actions, VS Code, Linux, AWS, Vercel, Render, Jira, Trello, Figma

Selected Technical Work

RUDI

rudi.asia

Full-Stack Developer Intern

Jan 2026 – Apr 2026

- Built features in a production Next.js App Router platform for long-term housing discovery, working within established architecture and release constraints.
- Implemented API-integrated product flows and localization (i18n) across listing, discovery, and account experiences.
- Improved performance and UX with Lighthouse-driven optimization, lazy-loading strategies, and page-level reformatting across key user flows.
- Strengthened SEO and technical foundations with metadata, manifest updates, React component refactors, and iterative Agile bug-fix cycles.

Vero Ventures | InsurFlow

insurflow.biz | GitHub

Full-Stack Developer Intern

Jan 2026 – Apr 2026

- Rebuilt a greenfield InsurTech SaaS in a team of 5 using Next.js, TypeScript, PostgreSQL, and Drizzle ORM for a modern multi-tenant foundation.
- Developed advisor-facing calculation and dashboard features; integrated AI-assisted workflows using OpenAI APIs for faster, data-driven operations.
- Implemented DevOps and CI/CD guardrails using GitHub Actions with Vercel preview and production deployment flows.

Tandem

tandem-app.com | GitHub

Lead Full-Stack Developer (Academic Industry Project)

Sep 2025 – Dec 2025

- Built a collaborative scheduling platform with secure authentication, complex user roles, and reliable multi-user access/session flows.
- Designed typed Socket.IO event contracts to power real-time sharing parties, live chat, and synchronized scheduling interactions.
- Implemented AI-assisted pipelines that transformed voice, text, and PDF inputs into structured scheduling-ready application data via API integrations.

Additional Experience

W3rlds | UI/UX Web Designer Intern (Remote)

Aug 2024

Designed layouts in Figma/Framer, improved usability from feedback, and supported SEO-oriented content structure.

Platform 7 Coffee | Barista

Jul 2025 – Mar 2026

Delivered fast customer service, handled POS operations, and coordinated effectively in high-traffic team shifts.

Education

British Columbia Institute of Technology (BCIT)

Sep 2024 – May 2026

Diploma, Full-Stack Web Development

Canggu Community School

Sep 2021 – May 2024

International Baccalaureate Diploma Programme
